1. Claims 15, 18, 22, 26, 30, 33, 37 and 41 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

This rejection is maintained from the previous office action in that it is unclear what is embraced by E¹⁵. Applicants state that it is clear, but the Examiner disagrees. Again, the presence of open bonds indicates that the compound has been polymerized. Such a polymer then would not be considered a "compound". On the other hand, it does not appear from the definition of E¹⁵ that a polymer is intended.

Applicants' response only adds to the confusion. Applicants state on the record that "it seems clear that the compound of formula (1-5) is shown prior to polymerizing" and applicants refer to various sections of the specification to support this position. In the specification, for instance starting on page 36, applicants refer to the compound of formula (1-5). K-20 to K-25 in fact show polymerized compounds. In addition, referring to formulas (3-a) through (3-d) in the specification does not aid in clarifying what is intended since these formula contain open bonds as well.

Note too that formula (3-1) is defined as being a polymer.

Thus it is not clear if a compound or a polymer is intended by this formula.

2. Claims 12 to 14, 16, 17, 19 to 21, 23 to 25, 27 to 29, 31, 32, 34 to 36, 38 to 40 are allowed.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of
